

Parent/Guardian Request for Fluid Milk Substitution

St. Catherine of Siena Early Childhood Education - School Nutrition Program

Parents/guardians may request, in writing, a non-dairy fluid milk substitution for their child with a medical or special dietary need without providing a statement from a medical authority. The milk substitute requested must be nutritionally equivalent to fluid milk and meet the nutritional standards set by the United States Department of Agriculture (USDA) for Child Nutrition Programs¹. Important note: Program operators are not required to provide substitutions and this request may be denied². Price, availability, purchasing requirements, and other factors will be considered for this request. Fruit juice and water do not qualify as milk substitutes.

St. Catherine of Siena provides lactose free milk for students with lactose intolerance or sensitivity. And soy milk is provided for any student having a medical need to eliminate cow's milk protein. Please inform the School Nutrition Manager at your school of either of these needs. The School Nutrition Manager will contact the Registered Dietitian and the submitted form will be reviewed. Once a need for the fluid milk substitute is verified, the milk substitute will be obtained and provided.

A non-dairy milk substitute must, at a minimum, contain the following nutrient levels per cup (8 fluid ounces) to qualify as an acceptable milk substitution:

Nutrient	Amount	Nutrient	Amount
Protein	8 grams	Phosphorus	222 mg
Calcium	276 mg	Potassium	349 mg
Vitamin A	500 IU	Riboflavin	.44 mg
Vitamin D	100 IU	Vitamin B-12	1.1 mcg
Magnesium	24 mg
